PROFESSIONAL SUMMARY

iOS Software Engineer with 3 years of experience building and maintaining production-grade mobile applications for global Fortune 500 brands using Swift and Objective-C. Proven track record of delivering high-quality, complex user-facing products at scale, acting as the production owner for 11 live App Store apps. Highly interested in fintech and secure transactional systems, possessing foundational knowledge of mobile payment integration, payment state management, and secure transaction flows. Team-oriented and proactive self-starter with extensive experience in cross-functional collaboration and utilizing fluent English to work alongside product owners and engineering teams. Detail-oriented focus on software quality, utilizing automated testing (XCTest) and Xcode Instruments to ensure high-performance, stable applications.

TECHNICAL SKILLS

- **Languages & Frameworks:** Swift, Objective-C, SwiftUI (fundamentals), Cocoa/UIKit, Combine, Core Data.
 - **Fintech & Payments:** Apple Pay & Google Pay integration, secure transaction handling (Keychain), tokenization, and idempotency for payment reliability.
 - **Architecture & Quality:** Object-Oriented Programming (Singleton, Delegate Pattern), MVC, MVVM, XCTest Unit Testing, crash monitoring.
 - **Performance & Tools:** Xcode, Xcode Instruments (Time Profiler, Allocations, Leaks), Git, memory leak resolution.
-

PROFESSIONAL EXPERIENCE

iOS Developer | C+A Global India | Jan 2024 - Present

- Owned production quality and maintained stability for 11 live iOS apps serving millions of users.
- Maintained reliable state management for purchase-adjacent flows handling order placement, network failure recovery, and transaction confirmation.
- Profiled and optimized memory-intensive workflows using Xcode Instruments (Allocations, Leaks profiler), resolving critical memory leaks and eliminating retain cycles.
- Collaborated with cross-functional teams, including hardware engineers, QA specialists, and product owners, to deliver features on schedule.

- Managed App Store compliance including privacy manifests and permission flows across multiple simultaneous app submissions.
- **Fintech & Payments:** Engineered secure, purchase-adjacent flows in photo printing apps, integrating **Apple Pay** and **Google Pay** for end-to-end transaction handling and seamless user checkout.

iOS Trainee | CS Soft Solutions Pvt. Ltd. | July 2023 - Dec 2023

- Completed intensive professional training focusing on Swift, UIKit, MVC architecture, and memory management.
- Built prototype modules with programmatic AutoLayout for complex, responsive UI layouts.
- Developed an application utilizing Core Data for persistent storage to demonstrate data modeling and CRUD operations.

KEY PROJECTS

Kodak & Polaroid Ecosystem - 7 Live Apps

- Provided full ownership of maintenance, feature development, and performance for a complex ecosystem of high-traffic apps.
- Designed an offline-first Core Data sync engine to reliably deliver assets to millions of users.
- Integrated secure payment gateways to facilitate in-app hardware and supply purchases via Apple Pay, ensuring App Store privacy compliance and secure API communication via certificate pinning concepts.

Forge Fitness Tracker (Personal Project)

- Designed a complex 15-table relational database using Drift (SQLite) to ensure data integrity across workout logs and body composition history.
- Implemented precise mathematical models (US Navy Method) for body composition analysis and TDEE tracking.
- Developed interactive progress tracking using *fl_chart* to render complex data sets into digestible user insights.

EDUCATION & ADDITIONAL INFORMATION

- **Master of Computer Applications (MCA)** | Lovely Professional University | Expected 2027 (Online).
- **Bachelor of Computer Applications (BCA)** | Swami Vivekanand Institute (SVIET) | 2021-2024.
- **Languages:** English (fluent, written and spoken), Hindi (native).
